

# bSource™

- bSource™ is an enterprise content management application for iPad that gives users and administrators complete control over the way they arrange their content.
- Files of any type (PDF, JPG, MOV, MP3, etc.) are synced from a home office computer to one, ten or ten thousand iPads in the field.
- bSource is designed for simplicity, flexibility, security and ease of use.
- bSource gives your administrator total control over every document sent. bSource is licensed with a live help desk and email support as well as a training session. We'll make sure your administrator and users know how to maximize the app.

# bSource bEnefits

- Automated document distribution process that improves sales and marketing productivity
- Sync hundreds or thousands of iPads fast: initiated by user or administrator
- Total document security, especially for high-level materials
- Collection and organization of content from the web, email, or the device's camera for collaboration and feedback from the field
- Search rapidly through large text files and save time
- Easy web interface and complete control over every file for your bSource administrator
- All your content is available offline – no clouds, no storage fees.
- Move, rename, organize and delete files within the app
- List of most recently updated content ensures users never miss new material

## bSource ROI

- Your company will save thousands of dollars in printing charges by using bSource for iPad.
- bSource will help you get the right information to the right customer at the right time. It can mean the difference between landing a big account and watching it slip away to your competitor.
- Your salespeople, managers and agents will make better presentations in the field, fostering client loyalty and positioning yourself as an innovator in your field.
- You will save money and keep your information secure by not paying cloud storage fees and never sending documents to a third party.
- You will save time and manpower by correcting errors with a few clicks instead of a reprint.
